

# THE “STATEMENT”

## AUTOMATIC REMOTE CONTROL BOLLARD

Our Automatic Remote Control Bollard is one of the tallest on the market. This STATEMENT bollard stands at 530mm high, which is over half a metre tall! It's sleek rounded shape makes for a bollard that looks good and protects your car space with authority.

### **UNIQUE**

We are proud to be the sole supplier for this model and along with the [SOLAR](#) bollard, it's the only one of its' kind in Australia and makes it unique to SecureSpot.

### **QUALITY**

A heavy duty steel and cast iron base is in line with the Quality, Strength and Durability that we offer and this along with a few extra features will definitely make a strong “STATEMENT” in your car spot.

You have the control - actually, you'll have two! Each automatic remote control bollard comes with 2 remote controls as standard and additional ones can be programmed upon request\*

You have the comfort - raise and lower your bollard within seconds from inside your vehicle! With a 15m remote range, you can lower your bollard and drive straight into your spot.

### **ADDITIONAL OPTIONS**

[Master Remote Controls](#) are also available so that when purchasing in bulk you have the ability to control literally hundreds of bollards individually with one device\*

Keyed alike options are available for bollards bought in bulk meaning that when it comes time to change the batteries, opening up each bollard base is made much simpler with no need to manage multiple keys for different bollards.

## FEATURES

Our automatic remote control bollard has crash resistance\*\* - this alarm feature will give you peace of mind to know that if any minor bumps occur, then your bollard will be protected. If it gets knocked by a car, or by a person, the alarm will sound and the bollard will rise back up.

## ENHANCE PROTECTION WITH REFLECTIVE STICKERS

Every STATEMENT automatic remote control bollard comes with a Reflective Vinyl SecureSpot Sticker. Not only does this enhance the visibility of your bollard during the day, at night time it will brightly reflect headlights making it a fantastic addition. Want it to stand out with your name, not ours? Customisation is available for our whole range of bollards.

## DURABLE

Suitable for indoor or outdoor car parks, the weather proof powder coating will ensure your bollard will be able to withstand Australia's sometimes harsh conditions.

Our STATEMENT bollard has a very reasonable price point, with the cost being less than other models on the market which are smaller. For this reason, and the features mentioned above, there's no wonder this automatic remote control is our best seller.

## MAINTENANCE

Each bollard comes with a rechargeable battery and requires a charge approximately every 3 months.

**\$350+GST including installation. Prices outside of Melbourne may vary. Ask us about Bulk Pricing.**

\*Additional remote controls will incur a charge of \$30+GST or a 4-pack for \$100+GST including programming at the time of ordering your statement bollards.

\*\*The statement automatic remote control bollard is designed to be a parking deterrent. We do not recommend that your statement bollard gets hit by a car. The crash resistant feature is in place for small 'bumps' at a very slow speed and we provide no guarantees that your statement bollard will be in working condition after it has been hit.
